

**CMRIPS**

*The College of Medical Radiation and  
Imaging Professionals of Saskatchewan*

<b>Aspect</b>	<b>Regulator (e.g., CMRIPS)</b>	<b>Association (e.g., CAMRT, Sonography Canada)</b>
<b>Mandate</b>	Acts in the best interest of the public.	Acts in the interest of the members of a profession.
<b>Accountability</b>	Is accountable to the public through the provincial government.	Is accountable to its members.
<b>Activities</b>	Sets the scope of practice, Code of Ethics, Standards of Practice and entry-to-practice requirements legally defined by the The Miscellaneous Statutes (Health Professions) Amendment Act, 2023 (Bill120) for the practice of a profession.	Serves and supports its members through education, advocacy, professional liability insurance and member benefits.
<b>Registration vs. Membership</b>	Registers members based on legislated criteria. Membership is mandatory to practice.	Accepts members based on association determined criteria.
<b>Qualifications</b>	Sets registration requirements (education, experience, testing to verify competence to practice).	Creates and facilitates certification examinations.
<b>Continuing Education</b>	Requires members to participate in legislated programs to ensure continuing competence.	Provides members with opportunities for continuing education.
<b>Advocacy</b>	Performs no overt advocacy work. It collaborates with government, professionals and the public to ensure safe, competent and ethical care.	Advocates for the profession in order to effect changes to service delivery, to develop specialty certificates and to increase public awareness of professional services.
